

Philippines : Mary Ward's community [IBVM & CJ]

During 'Laudato Si Week' we made up liturgy every morning and remembered that we are all connected each other in the world.

First, we tried to look around the nature that was connected to us closely, and to stay awake either personally or collectively to restore our relationship with the poor and marginalized especially with the creatures.(even though quarantine) In particular, on the day of the end of the week, we gathered together to share how each of us spent the week, and got into 'Special Laudato Si' Anniversary Year'.

The following are the ones shared together in paintings, photographs, or ppt by ourselves.

<organizing the Re-cycling place: We call here 'ECO Collection'>
