

## Korea Province & Seoul community

In Korea Province, we reformed 'Laudato Si week prayer' to Card News design and shared it online with community sisters and many other people every day.

In Seoul community, spending 'Laudato Si week', we had a time to share 'signs of the time' in small groups and all together again. Through the sensing of reality, we shared how the church and society will be changed and shared how we should change and prepare for them.
