

## Season of Creation

Inspired by Pope Francis' initiative for the month-long celebration of Creation we designed our own focal point around the five elements of Earth, Air, Water, Fire and Wind. The statue of St. Francis was placed in a central position as the Season of Creation would end on his Feast Day, 4<sup>th</sup> October and of course we were continuously reminded of the love and respect he had for creation... Mother Earth, Brother Sun, Sister Moon...

When we received Adina and Pauline's PowerPoint via Kathryn we incorporated it into our daily prayer together building up a second focal point adding, day by day, symbols similar to those portrayed in the PowerPoint.

Season of Creation in our garden.
